

I have an urgent complaint. Please members of the FCC, stop the SINCLAIR BROADCASTING GROUP, INC. from blatantly thumbing its nose at your rules and regulations in their indulgent campaign for the Republican Party, in showing the anti-Mr. Kerry documentary they are claiming is "news" despite the fact it has played only previously on the lowest common denominator Internet, and is not being distributed through accepted and legitimate channels. This appears to be propaganda, and not qualify as newsworthy. Please stand up to Sinclair Group and its Staff and insure this does not happen. Thank you so much for listening. Rosemary Rotondi, NYC
